"ELEVATOR SPEECH" (communicate your solution)

What problem are you solving?	More than half of Liberia's population did not have access to clean water in 2008. The majority of disease and death in Liberia can be traced back to water-borne illnesses.
How do you solve the problem?	We've developed a coordinated national strategy for reaching every Liberian with safe drinking water and sharing the Gospel with those we serve through a cooperative effort of International & Local NGOs, church planting organizations, the Ministry of Public Works and the Ministry of Health.
Exemplary Project	We've developed a partnership with the Ministry of Public Works, the Ministry of Health, Liberian church planting and evangelism teams, and Sawyer Products (USA) to install and monitor 100,000 total Safe Water Systems (Sawyer POINT ONE water filters) in rural villages that cannot be reached effectively with our current drilling equipment. We will reach 600,000 under-served Liberians as a result.
Big Organizational Goal	Every citizen in Liberia will be within a 15 minute walking distance of a year-round clean water source and the Gospel will be offered to every community we serve by December 31, 2020.

STRATEGY (based on the 5 Drucker Questions)

1. What is your mission ?	To provide access to clean water to the entire nation of Liberia and offer the Gospel to every person we serve by 2020.
2. Who is your customer ?	Any citizen in Liberia that is not within a fifteen-minute walking distance of clean water and has not heard the Gospel.
3. What does your primary customer value ?	Having good health, and for deaths from water-borne illnesses to be eliminated.
4. What are your most significant results ? Report outcomes <i>not</i> activities.	Since 2008, we've provided over 1.3 million Liberians with access to clean water in 2,100+ communities, with 1,951 reached since FY14. The Gospel has been presented in each of these communities and they are connected to a local or regional Christian pastor. 54% of our total projects have been completed in the past 24 months. When we started our work in 2008 an estimated 50% of Liberia lacked access to safe water. As of December 2016, 20-25% now lack access to safe water.
Measure outcomes against benchmarks	<input checked="" type="radio"/> Yes <input type="radio"/> No Track Key Performance Indicators <input checked="" type="radio"/> Yes <input type="radio"/> No Completed program logic model(s) <input type="radio"/> Yes <input checked="" type="radio"/> No
Completed independent evaluation	<input checked="" type="radio"/> Yes <input type="radio"/> No Survey program beneficiaries <input checked="" type="radio"/> Yes <input type="radio"/> No Cut program in past 3 years for bad results <input type="radio"/> Yes <input checked="" type="radio"/> No
5. What is your 1-3 year plan ? List clear goals & deadlines.	(2016-2018): Reach 9 of the 15 counties border-to-border w./ the Gospel and access to clean water. Part of this 3 yr plan is to install 50,000 Sawyer filters & complete a 3-stage monitoring & evaluation initiative to determine continued effectiveness of the Sawyer System. 6 partners now doing installations vs 2 in 2016, training 2 more now. 50 workers installing, w./ a possible 20 more soon.
* Cite 1 recent & significant program improvement .	Implemented GIS software in the field to better assess, monitor and evaluate all of our projects. This has been a true game-changer in our ability to gather both quantitative and qualitative data from the field to determine the effectiveness of our work.

GEOGRAPHIC SCOPE

Where do your programs operate?	<input type="radio"/> Local <input type="radio"/> Regional <input type="radio"/> National (USA) <input checked="" type="radio"/> International (List nations or regions served below alphabetically)
---------------------------------	--

Liberia

S.W.O.T. ANALYSIS

STRENGTHS	WEAKNESSES	OPPORTUNITIES	THREATS
Evangelism, church plants, water provision work done by Liberians; Reaching entire country of Liberia by Dec. '20; 100% of our operations and fundraising budget covered by small group of donors.	Communicating with spread out team; Lack of educated, experienced oversight in the field; Small # of U.S. staff; While creating focus, time frame for completion does not allow for many obstacles.	Reach 2 Million people with clean water and the Gospel; Be the 1st group to ever reach an entire nation with water and the Gospel; Setting a precedent for reaching other nations.	The potential political instability with the pull out of UN forces this year; 2017 marks an election year to bring in the first new president since the civil war ended in 2004 and President Sirleaf was elected in 2006.
